

Product Discontinuation – Door Lock S2D

Dear Customers,

In the course of the restructuring of our factory and as a result of the continuous streamlining of our product portfolio, we hereby discontinue the following products:

- **Door lock type S2D**
for single-sided and double-sided opening shaft hinged doors in accordance with DIN 18090 (January 1997 edition) for the requirements placed on hinged and folding doors for **shafts with walls of fire resistance class F 90**.
- **Door lock type S2D bolt Ex**
locking as part of locking device with blocking flap for shaft hinged doors, type 6551/3, S2D bolt right- and left orientated execution (device for monitoring door pressure protection as part of flap locks for single- and multi-hinged shaft doors) for intended use in **potentially explosive atmospheres** (Directive 2014/34/EU).

Further service can be obtained from your LiftEquip contact person or via our homepage www.liftequip.com.

Thank you for your understanding and your support on our way to reduced complexity!

Best regards
